Project

PixelGoat Clone— *Live*

In this Project, I Cloned a website clone of PixelGoat utilizing CSS Grid and Flexbox to ensure responsiveness across all pages. Implemented a JavaScript event handler to manage events for responsiveness, particularly making the header fixed

Weather App— *Live*

In this project, I managed API requests and mastered the promises to update the user interface dynamically using the Document Object Model (DOM). Developed a weather application where users input their city name to receive real-time weather updates upon pressing enter.

Omnifood Website— *Live*

Gained extensive insights into web design methodologies, particularly focusing on CSS Grid for versatile layout designs and Flexbox for crafting responsive pages. Acquired proficiency in implementing transitions and animations to enhance page aesthetics and user experience.

EDUCATION

Vaish College of Engineering, Rohtak— *B.tech CSE*

July 2022 - July 202026
Learning web development and going with the flow of new technologies.
